IT benefits

Working with us brings several benefits for our clients:

Detailed Reports:

Clients receive comprehensive reports from us, providing insights into their fleet's performance, maintenance history, and operational efficiency. These reports enable informed decision-making and optimization of fleet management strategies.

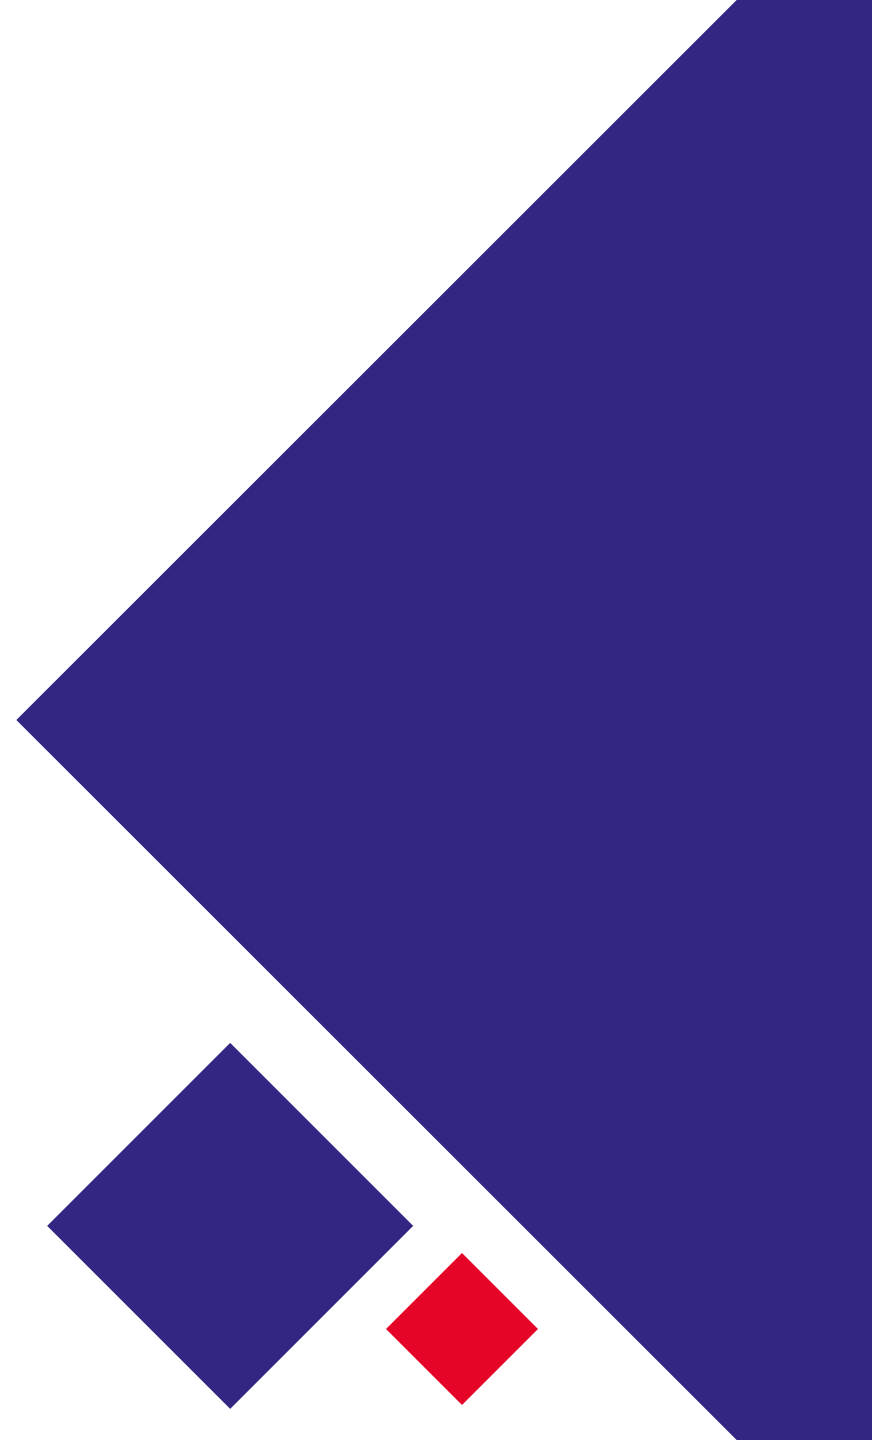

By partnering with us, clients gain access to actionable data and cutting-edge IT tools that empower them to maximize fleet performance, reduce costs, and ensure compliance with industry standards.

IT Solutions:

We offer integrated IT solutions tailored to meet the specific needs of our clients. These solutions enhance operational efficiency, streamline processes, and improve overall fleet management effectiveness.

Why Lorenc?

Professional staff

Certificates

ISO 9001:2015

solutions.

Our Commitment to Sustainability

Eco-Driving and Smart Practices

- Training: Comprehensive eco-driving techniques and regular updates.
- Driving Habits: Encouraging smooth acceleration and avoiding aggressive driving.

Green Fuel and Technology

- HVO Fuel: Reducing carbon footprint with innovative, eco-friendly fuel.
- Turbo Compound Technology: Minimizing CO2 emissions.

Sustainable Warehousing

- IoT Integration: Smart control of lighting, heating, and cooling.
- Energy Efficiency: Heat pumps, LED technology, and PV installations.

Employee Engagement

- Regular Communication: Involving drivers in sustainability initiatives.

Advanced Technology Adoption

- Efficient Trucks: Aerodynamic designs and Euro 6 emission standards.
- Smart Software: Volvo trucks with Special Economic Software for real-time engine and driving optimization

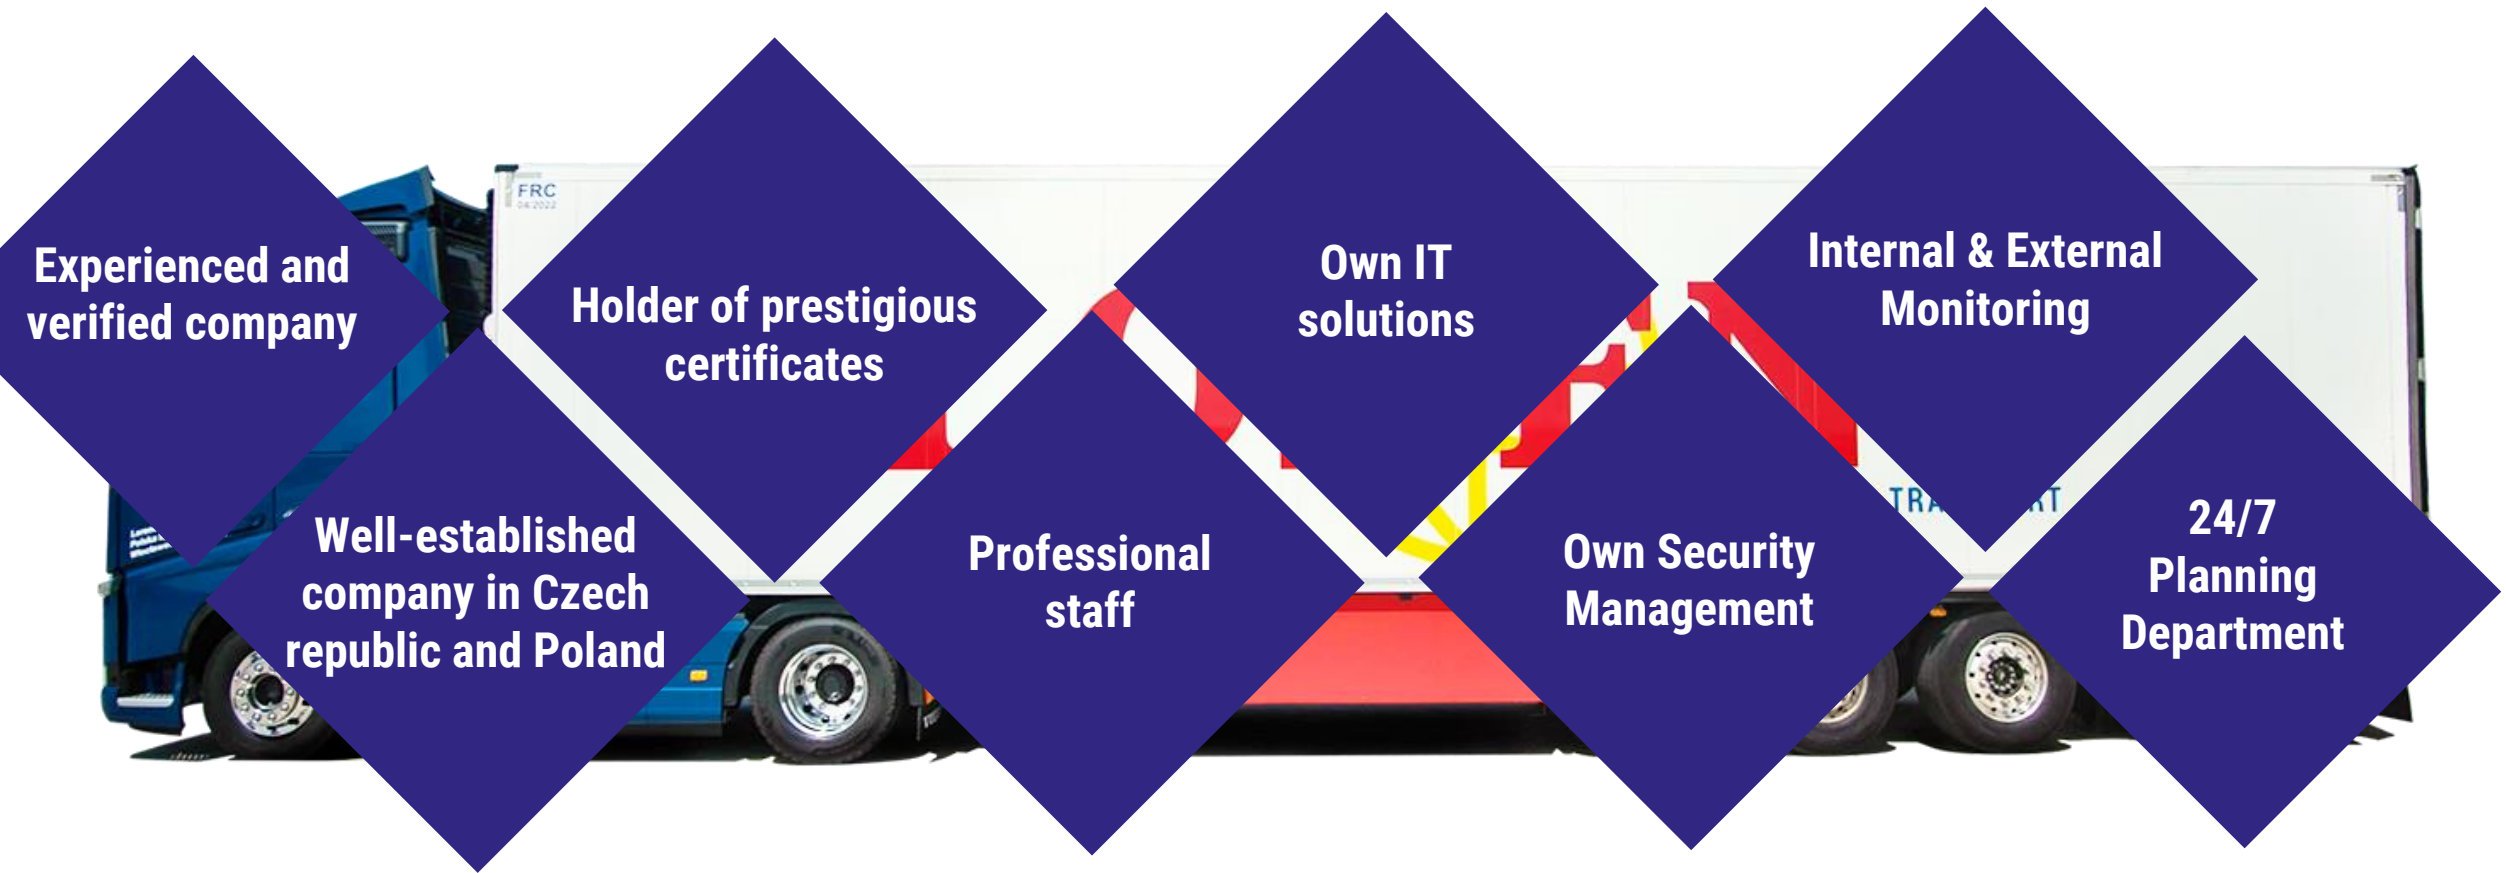

Proactive Vehicle Maintenance

- Regular Inspections: In-house service team performs bi-monthly checks.
- Tire Management: Properly inflated tires for optimal performance.

Route and Load Optimization

- GPS & TMS: Efficient route planning and swift adjustments.
- Load Efficiency: Full loads without overloading to improve CO2 efficiency.

Summary
